Bridge the Financing Gap - Financing options are available.

Build immediately or many years later.

Purchasing land with a land loan is a great way to establish a location for your home and a lot loan doesn't require that you pay insurance on a dwelling. Build your home on your own schedule.

We offer seller financing, 3% interest with 35% down and amortizing terms of 5, 10, 15 and 20 years.

What should you look for when shopping for a lot?

Start in your price range. Most experts agree that the cost of buying the land and preparing it should not take up more than 25% of your total construction budget.
